Reference/Recommendation

Godwin Ita

Dear Sir/Madame:

Godwin Ita has been an invaluable resource to our electronic health record implementation Catholic Health Initiative for the period of June through November, 2014. During that time, Godwin identified areas of training concern and pro-actively worked with our on-site Analysts to upgrade the material and content of his training curriculum.

Godwin strives to engage employees of our organization, staff at our customer sites, and physicians in a positive and cohesive manner. He has become a highly trusted member of our team in the view of those he works closest with, as well as by our customers. They do not view him as 'just a consultant', which can easily occur when one is not a permanent staff member.

Godwin uses humor and an engaging communication style to facilitate building relationships among his team members. He is very concerned about the success of our end users and takes a personal interest in ensuring the information he provides will lead to their ability to become fluent in the applications for which he provides training.

In addition, Godwin has taken the time to become involved in our local community, exhibiting an interest in volunteering of his time when he is not working.

Godwin Ita is a highly effective, proficient and professional Credentialed Trainer.

Please do not hesitate to contact me for further information.

Sincerely,

Joy Abia, MBA

ASAP, and Inpatient Supervisor. AMS  
Team.
